pgb-Europe

pgb-Europe is a Belgian family-owned company specialised in the distribution of fasteners, fixings and hand tools. Our vast range of products allows us to meet the individual needs of every customer.

Intelligent fastening solutions

We want to be a leading company in the domestic market of our field. pgb-Europe distinguishes itself through knowhow, excellent product quality, a high delivery rate and customer-oriented service and sound advice. We stand for a long term partnership with a clear win-win situation, by offering products with added-value. A strong emphasis is put on finding the best and most cost-efficient solution for our clients.

FR

pgb-Europe

pgb-Europe est un fournisseur complet pour les systèmes de fixation et l'outillage. Avec notre large assortiment de produits, nous avons toujours une solution pour nos clients.

Intelligent fastening solutions

Nous aspirons à devenir une société idéale dans notre secteur. pgb-Europe se distingue par les moyens de knowhow, par une qualité de produits irréprochable, par des livraisons régulières et par un excellent service clientèle. Nous sommes également désireux de garder nos partenaires grâce à un esprit de "gagnant" et grâce à la valeur ajoutée de nos produits. Notre seul but est de trouver la meilleure solution pour notre clientèle.

NL

pgb-Europe

pgb-Europe is een Belgische KMO gespecialiseerd in het verdelen van bevestigingsmaterialen en handgereedschappen. Door onze jarenlange ervaring en het uitgebreide productassortiment bieden we elke klant een totaaloplossing.

Intelligent fastening solutions

Wij streven om een toonaangevend bedrijf te zijn binnen onze sector. pgb-Europe onderscheidt zich door knowhow, uitstekende productkwaliteit, een hoge uitleveringsgraad en een klantgerichte service. Wij gaan voor partnerships op lange termijn met een duidelijke win-win situatie, door onze producten van toegevoegde waarde te voorzien. De nadruk ligt steeds op het vinden van de meest gepaste en kostenefficiënte oplossing voor de klant.

DE

pgb-Europe

Die Belgische Firma pgb-Europe NV ist Ihr zuverlässiger Partner für alle Befestigungstechnik und Handwerkzeuge. Unsere langjährige Erfahrung und tiefes Angebotsspektrum tragen dazu bei. Für sie einen kompletten Lösungsanbieter zu bedeuten, der Ihnen das komplette Beschaffungsmanagement spürbar vereinfacht.

Intelligent fastening solutions

pgb verfügt über ein umfangreiches Lieferprogramm und differenziert sich auf dem Markt durch qualitativ hochwertige Produkte, seine Dienstleistung, eine zuverlässige Auslieferungsgrad und Innovation. Und selbstverständlich geht die Betreuung von Kunden bei pgb immer noch weit über das Übliche Maß. Sie erhalten bei uns alles aus einer Hand und wir bieten Ihnen maßgeschneidernde Lösungen. Ausgangspunkt ist eine langjährige, angenehme Geschäftsbeziehung wobei Sie uns als wichtigen Partner schätzen lernen, der stets mit Engagement und Service Ihre Aufträge termingerecht abwickeln werden.

Sustainability

We promote environmental friendly products. Therefore we use chromeVI free zinc plating. For our packaging we use recycled cardboard.

Ook bij pgb-Europe dragen we ons groene steentje bij voor verantwoord ondernemen. Zo worden onze schroeven chromeVI-vrij verzinkt en gebruiken we gerecycleerd karton voor onze verpakking.

Chez pgb-Europe, nous nous responsabilisons également en respectant l'environnement: en effet, notre visserie en zingué ne contient pas de chromeVI et nos produits sont emballés dans des cartons entièrement recyclables.

Auch die pgb Gruppe unterstützt und fördert Umweltbewusstes Handeln. Deshalb legt pgb-Europe ein lagerhaltiges Programm mit Chrom VI-freier Dickschichtpassivierung auf und verwendet Verpackungen aus rezykliertem Karton.

Images

Images, dimensions and holes might subject to variations. Afbeeldingen, afmetingen en gatenpatronen kunnen wijzigingen ondergaan.

Images, dimensions et trous pourraient subir des modifications.

Bilder, Abmessungen und Löcher können sich verändern.

Important notice

Despite the fact that most of the products we supply do not fall under the scope of the RoHS regulations pgb-Europe wants to be active and supportive when dealing with all environmental issues and requirements in general. Therefore Cr6+ yellow zinc plated article items (items with 'GZ' symbol) will be replaced, as much as possible, by white zinc plated article items (Cr3+).

BlackTop has it covered

EN

BlackTop coating is a deep black surface treatment with high corrosion resistance, a low layer thickness and an even black gloss effect. It is the ideal surface treatment for those looking for a black finish with high corrosion resistance (500h SST). Should the strong BlackTop be damaged, the underlying zinc layer will continue to protect the material.

Naturally, the BlackTop surface treatment is free of harmful substances and complies with the European REACH and RoHS guidelines.

“Materials with the BlackTop coating guarantee a high corrosion resistance (500h SST) and ensure a beautiful and advanced finish of all your projects.”

NL

BlackTop is een diepzwarte oppervlaktebehandeling met een hoge corrosieresistentie, een geringe laagdikte en geeft een egaal zwart glanzend effect. Het is de ideale oppervlaktebehandeling voor wie op zoek is naar een zwarte afwerking met hoge corrosiewering (500h sst). Indien de toplaag beschadigd raakt, dan is er nog steeds de onderliggende zinklaag die voor bescherming van het materiaal zorgt.

Uiteraard is de BlackTop oppervlaktebehandeling vrij van schadelijke stoffen en voldoet ze hierbij aan de Europese richtlijnen REACH en RoHS.

“Materialen met BlackTop label indicatie staan garant voor 500h SST en zorgen voor een mooie uitstraling van al uw projecten.”

FR

BlackTop Coating est un traitement de surface noir profond avec une haute résistance à la corrosion, une faible épaisseur de couche et un effet de brillance noir uniforme. C'est le traitement de surface idéal pour ceux qui recherchent une finition noire avec une haute résistance à la corrosion (500h sst). Si le BlackTop résistant est endommagé, la couche de zinc sous-jacente protège le matériau.

Naturellement, le traitement de surface BlackTop est exempt de substances nocives et est conforme aux directives européennes REACH et RoHS.

“Les matériaux dotés du revêtement BlackTop garantissent une résistance élevée à la corrosion (500h SST) et assurent une finition magnifique et avancée de tous vos projets.”

EN

Use

The use of black fasteners has gained popularity. That's why we have created the high-quality BlackTop range. After all, products that have been treated with the BlackTop coating can be used for many applications.

The most common applications are the installation of blackened hinges, handles and other types of black fasteners.

Advantages

Materials with the BlackTop coating guarantee a high corrosion resistance (500h SST) and ensure a beautiful and advanced finish of all your projects.

Thanks to the progressive performance of BlackTop, including the underlying zinc layer which continuously provides protection when the black top layer is damaged and the integrated wax which ensures that the materials will keep fitting, you can enjoy an optimal and long-lasting fixation.

Ideal for outdoor applications

Products with the BlackTop coating are extremely suitable for outdoor applications. Thanks to the corrosion-resistant properties of the coating, fasteners and fixings remain protected against various environmental factors and the elements, such as rain and wind.

With this coating you do not only opt for functionality, but also for a sustainable solution that contributes to the lifespan of your fasteners. In short, with BlackTop you will enjoy the aesthetically pleasing result for longer.

NL

Gebruik

Het gebruik van zwart bevestigingsmateriaal heeft aan populariteit gewonnen. Daarom hebben we de kwalitatieve BlackTop range in het leven geroepen. Producten die een BlackTop Coating krijgen, kunnen immers gebruikt worden voor heel wat toepassingen.

De meest gangbare toepassingen zijn het monteren van zwarte scharnieren, hengen en andere soorten van zwart beslag.

Voordelen

Materialen met BlackTop Coating staan garant voor 500h SST en zorgen voor een mooie uitstraling van al uw projecten.

Indien de BlackTop laag beschadigd raakt, dan zorgt de onderliggende zinklaag nog steeds voor bescherming. Daarenboven zorgt de geringe laagdikte en het geïntegreerde smeermiddel voor een ideale oplossing zodat materialen steeds op elkaar blijven passen, bv. bouten en moeren.

Ideaal voor buitentoepassingen

Producten die voorzien zijn van de BlackTop coating, zijn uiterst geschikt voor buitentoepassingen. Dankzij de corrosiebestendige eigenschappen van de coating blijven producten en bevestigingen langer beschermd tegen de verschillende omgevingsfactoren, zoals bv. regen en wind.

Met deze coating kiest u niet alleen voor een duurzame oplossing voor uw bevestigingen, maar geniet u ook langer van een esthetisch ogend resultaat.

FR

Usage

L'utilisation d'éléments de fixation noirs a gagné en popularité. C'est pourquoi nous avons créé la gamme qualitative BlackTop Coating.

En effet, les produits dotés d'un revêtement BlackTop peuvent être utilisés pour un grand nombre d'applications. Les applications les plus courantes sont le montage de charnières et de poignées noircies et d'autres types de ferrures noires.

Avantages

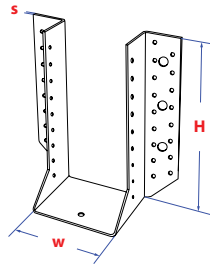

Les matériaux dotés du revêtement BlackTop garantissent une résistance élevée à la corrosion (500h SST) et assurent une finition magnifique et avancée de tous vos projets.

Grâce à la performance progressive de BlackTop, y compris la couche de zinc sous-jacente qui continue à fournir une protection lorsque la couche noire 'Top' est endommagée et la cire intégrée qui assure que les matériaux continuent à s'adapter, vous pouvez profiter d'une fixation optimale et durable.

Idéal pour les applications extérieures

Les produits dotés du BlackTop Coating conviennent parfaitement aux applications extérieures. Grâce aux propriétés anticorrosion du revêtement, les produits et les fixations restent protégés plus longtemps contre divers facteurs environnementaux, tels que la pluie et le vent.

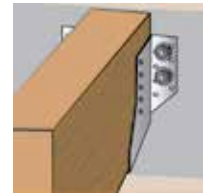

Avec ce revêtement, vous ne choisissez pas seulement une solution durable pour vos fixations, mais vous profitez également d'un résultat esthétique plus durable.
